SUGAR JUMPS 25 CENTS ON 100 POUNDS TODAY

Sugar, for long regarded as a safe and sane article of commerce, has heeded the call of high prices and joined the advance of foodstuffs up the quotation scale. The advance was sudden and distinct, surprising men in the trade who had long believed it possible that the sweet might decline in price.

The advance today was 25 cents on the hundred pounds. Retail grocers, formerly paying to refiners and jobbers \$6.85 per hundred, have found that they were compelled to lay aside \$7.10 this morning when the market opened. The ultimate consumer who has in the past few months paid on the average of 7 1/4 cents a pound, will find the corner grocer charging 7 1/2 cents or more for the same quantity—or \$7.50 on the hundred pounds.

CITY ENGINEER H. D. CHAPMAN COMPARES TALLY FIGURES

(Special to Record-Herald)

MARTINEZ, Feb. 16.—The Hughes-Haven case went over until Monday today for argument.

MARTINEZ, Feb. 16.—H. D. Chapman, city engineer and ex-officio superintendent of streets, was the principal witness placed on the stand yesterday by the prosecution in the case of the People vs. W. W. Hughes and W. L. Raven, who are charged with conspiracy to defraud in connection with a sewer job in the Pullman district of Richmond.

The second day of the preliminary hearing proved interesting only in the matter of the methods employed by the attorneys in the case.

DEFENSE OBJECTS

Attorneys for the defense offered objection after objection, but the court invariably ruled against them. "Official testimony" might be the term to use in connection with what the witnesses stated on the stand today. All witnesses being employees or officials of Richmond, their remarks were mostly to do with the work in the city engineer's office where Hughes had formerly been employed as assistant city engineer.

WAS HUGHES' WRITING

Assessment warrant diagrams copies were exhibited and identified by City Engineer Chapman as those used in his office and which were furnished the contractor, W. L. Raven, as authorization to collect from the property owners.

Chapman identified the writing on these diagrams as being that of Hughes. Attorneys for the defendants entered strenuous objection to this testimony, but the court would not listen to their claims and the testimony was admitted.

COUNCILMAN TESTIFIES

John Gerlach, councilman of Richmond and Surveyor Ross Calfee were also on the stand but their testimony was of a general nature and brought out nothing that has not been testified to already and dealt principally with the methods of awarding contracts and making a survey of the district wherein municipal work is done.

COAL FAMINE BROKEN

It appears that the coal famine in the cities surrounding San Francisco bay has been broken by the arrival of a considerable quantity from the mines and in the future there is not a great deal of danger that the shortage will be repeated during the present season. Locally the situation has been relieved and while it has never been serious, for the most part the people here have been getting along with wood and carbon from the Oakland gas plant. Nobody has been seriously hurt.

The price of coal has resulted in "carrying coals to Newcastle." The East, the home of hard coal, has been getting anthracite from Arkansas. Even with the trunk lines clogged with eastbound war shipments, the profitable market has drawn liberally from this district, a hitherto ignored source.

Thus the Arkansas anthracite and semi-anthracite fields are being developed, to the great advantage of the mid-continent region and the relief of the general situation. Western Arkansas is said to have considerable deposits of hard coal of higher grade than Pennsylvania, whose supply is steadily failing. The semi-hard deposits are far greater.

While this field is being cultivated more extensively, it seems strange that more attention has not been paid to the enormous lignite coal deposits that underlie North Dakota and eastern Montana. There are millions of tons—geologists say there are really trillions—easily accessible so far as mining is concerned. The lignite or soft brown coal, has somewhat less fuel value than ordinary soft coal, but still the experts say it is of incalculable value.

Transportation is the chief problem. The distances to big population centers are great freight charges are correspondingly costly, and the coal crumbles on exposure to the air. But it is said that all that inextensible supply might be turned into anthracite, equal in value to any in the country. Every ton of lignite—almost as easily dug as sand out of a sandbank—can be turned, at the mine, into half a ton of briquettes corresponding to the best quality of egg or anthracite, with a by-product of gas of about equal value.

When the situation is fully realized, we may see a generation of lignite coal barons springing up in the Northwest that will make the Pennsylvania breed look insignificant. That is, unless the States in question proceed to develop the mines themselves.

We just can't lose sight of Carranza. No sooner did the shadow of Germany darken our horizon than the old duck conveyed his profound admiration and good will to the kaiser. And everybody laughed.

Henry Ford has our unqualified forgiveness. He has offered the government the use of his entire factory for the making of war munitions, and the tender has been accepted.

Lloyd-George must feel more like a dictator than ever since the uncovering of that alleged plot to assassinate him.

As seen by Gen. Len Wood, the national guard system and the war department bureau system are equally inefficient.

AN ANTI-BOYCOTT LAW

The Anti-boycott bill introduced at the present session of the California Legislature by Senator Ballard of Los Angeles, and supported by the San Francisco Chamber of Commerce, is designed to make the sympathetic strike and the secondary boycott unlawful.

There is nothing in the bill affecting the right of employees to strike or to maintain a primary boycott against their own employer, for the purpose of enforcing their demands relative to their own labor conditions. The secondary boycott and the sympathetic strike do not come within this exception, and therefore would be made unlawful by this act.

The Ballard Anti-Boycott bill is necessary if the State is to protect its citizens from wanton injury inflicted upon them by those who may be involved in an industrial dispute to which the citizens injured are not parties. It is for the reason that the line of distinction has been drawn between the direct and the sympathetic strike and the primary and secondary boycotts.

The direct strike and the primary boycott affect only the employer involved in the dispute. The secondary boycott and the sympathetic strike on the contrary tend to injure those who are not directly involved in the dispute. The primary boycott has been defined by the California Supreme Court as the right of employees to cease dealing by concerted action, either socially or by way of business, with their former employer.

The employees have the right by all legitimate means by fair publication and fair oral or written persuasion to induce others interested in or sympathetic with their cause to withdraw their social intercourse and business patronage from this employer. This right is not sought to be interfered with.

But when the employees go further than this, and request of another that he withdraw his patronage from the former employer, and use the moral intimidation and coercion of threatening a like boycott against him if he refuse to do so, it is a case of secondary boycott. This secondary boycott has been declared illegal by the English courts, the Federal courts and by the courts of most of the States of America.

If we get the Washington hotel keepers' point of view right, people go to the inauguration expecting and prepared to be held up.

Maybe the allies are entitled to \$7,000,000,000 in loans from the U. S. A., as a London banker says, but we have a hunch they won't get it all.

At least some of 'em are ashamed enough to attempt to manufacture justification for having jacked up prices above those paid in the war zone.

Bryan's astonishing proposal to withdraw protection from Americans at sea may increase his popularity, but there are doubts.

Showing the world that American patriotism assays 99 per cent pure gold may prove of incalculable value in the future.

Germany's idea of the freedom of the sea seems to be to leave only its own ships afloat.

CARTOONS

As Others See Us
Students of the Drawing Classes
The students regret very much that the High School Assembly is not large enough to permit them to invite the public to this entertainment but as the enrollment of the school is now of such a size that the students nearly fill the hall this courtesy can not be extended. It is expected that the auditorium in the new building will be large enough to obviate this difficulty.

MOTOR NOTES

"O MOTOR SOUTH"
Mrs. T. R. McClure, wife of the prominent real estate dealer of this city left yesterday for a motor trip to Visalia. The roads to the southern part of the state are reported in fair condition at the present time and the party expect to have an enjoyable trip.

TO MARTINEZ
City Engineer H. D. Chapman together with City Auditor J. A. McVittie motored to Martinez and returned yesterday for the purpose of attending the Hughes-Raven trial.

"POLICE AFTER AUTOS"
Police of this city have started a new campaign on motor car owners for negligence in obeying several of the motor vehicle ordinances. Any cars found standing without proper lights will be immediately taken to police headquarters and the owners hauled into court.

"IT WOULD BE MY OWN FAULT IF I DIDN'T GET A NEW COAT FOR SUNDAY"

"—BECAUSE CHERRY'S CREDIT SHOP WILL GRANT ME CREDIT WITHOUT AN INITIAL PAYMENT"

"In fact, Helen, I'd consider myself very foolish, indeed, not to select my Coat IMMEDIATELY, because CHERRY'S have many wonderful bargains now which will without doubt be gone in a very short time."

"And they will not require me to pay anything at all today when I select my Coat! Of course, CHERRY'S Credit Department will have to pass upon my references, but, as I've always paid my bills promptly, I'm sure my credentials will be satisfactory."

"Isn't this new Offer of CHERRY'S Credit Shop the most liberal you ever heard, Helen? It means that we may buy lovely clothes—Suits and Dresses, Coats and Fur, Blouses and Petticoats—on the most convenient installment terms imaginable, selecting now from many specially priced assortments and PAYING NOTHING DOWN unless we choose!"

In Oakland the ladies' store is at 515 13th; exclusive men, 528 13th. CHERRY'S have one clothing store at 2400 Mission, cor. 20th. The other San Francisco store is now located in their bright, sunny, new quarters at 48 and 57 Geary, between Grant ave. and Kearny. —Adv.

DIAMOND NOTES

STILL TALKING

Embryo ball players of both the Married and Single Elks are still shouting what will happen when they are brought together at the First street grounds in a baseball game but as yet no definite arrangements have been made by either side. Elmer Bevan, minister plenipotentiary for the Married Men has written a number of "peace" notes to the heads of the Single Elks team specifying what rules are to be observed which enumerated are: Not more than 5 injured. No one to be allowed to use crutches. Not more than four bases on a home run.

That some oculist test the umpire's eyes before the game starts so that the game will not end up, at an inquest.

Other rules have been suggested but are too numerous to mention.

MARYSVILLE AGAIN

Marysville, the baseball Utopia of northern California is said to be once again clamoring for a return game with our Elks.

Despite the fact that the Marysville Giants walloped the locals two times in succession last year, they are again anxious to start their season off with the Richmond team as an opponent.

EAST BAY WATER CO. ANNOUNCES DIVIDEND

A dividend of 6 per cent on all class A preferred stock has been announced by the directors of the East Bay Water company, the organization which has taken over the affairs and holdings of the old Peoples Water company. The class stock represents about 60 per cent of the holdings of the bondholders of the Peoples Water company.

Attorney Wigginton E. Creed, general counsel for the company, was yesterday elected president. Creed is representing the company in the water rate hearing before the state railroad commission in the Oakland city hall. J. Y. Eccleston was elected first vice president and Robert M. Fitzgerald, second vice-president.

In the recent reorganization of the water company's affairs the owners of old 5 per cent bonds were made part owners in the new concern, receiving 60 per cent of their stock in class A preferred and 40 per cent in class B. It is on the former that the 6 per cent dividend has been announced.

According to Joseph Carleton, one of the directors, the dividend money will be derived from 1916 earnings and will probably total \$500,000.

KATHLYN MARTIN, STAR OF "THE SPOILERS" AT RICHMOND TONIGHT

Kathlyn Williams and Thomas Holding make their joint debut as Morisco stars in "Redeeming Love," which is the Paramount Picture at the Richmond Theater today and tomorrow. The story of this powerful drama is as follows:

Naomi Sterling and John Bancroft are young lovers in a small town. The girl loves frivolous things and Bancroft, a divinity student, finally estranges himself from her by his continual efforts to preach to her. Attracted by Hugh Wiley, a gambler from a nearby city, Naomi finally elopes with him and eventually becomes known as the gambling queen after she has set herself up in a magnificent palace. The girl's one ambition in life is to hoard up her wealth against the day when she shall lose her beauty and her popularity. Bancroft has

plunged into religious work with the fervor born of the desire to forget his broken heart. He has become famous as an evangelist and has been trusted with the combination to the vault of the great tabernacle over which he presides.

Learning this fact, Wiley adroitly inflames the mind of Naomi against Bancroft on the false ground that he has spurned her because of her life, and has held her up to ridicule and humiliation. He plans to have Naomi lure Bancroft to her gambling palace on a pretense, to overpower the minister while he is there, steal the combination and loot the tabernacle. Furthermore, Wiley arranges to have the executive board of the tabernacle informed when the minister is in the gambling den—and to have the place raided by the police while he and his pal, McCarthy, rob the tabernacle.
